SOURCE OF DATA

Florida Traffic
Accident Facts 1988

The information contained in this Traffic Accident Facts booklet is extracted from enforcement agency reports of traffic accidents meeting the conditions described below.

A law enforcement officer who is called to the scene of a traffic accident is required to investigate and file a full-length (long form) written report of the accident when the reporting standards outlined in Section 316.066 (3)(a), F.S., are met. The reporting standards outlined in this section are as follows:

- Motor vehicle accidents resulting in death or personal injury;
- Motor vehicle accidents in which one or more of the following conditions occur:
 1. Leaving the scene involving death or personal injury (Section 316.027 (2), F.S.);
 2. Leaving the scene involving damage to an attended vehicle or property (Section 316.061 (1), F.S.);
 3. Driving while under the influence of alcoholic beverages, chemical substances, or controlled substances or with unlawful blood alcohol level (Section 316.193, F.S.);
 4. Rendering a vehicle inoperative to a degree which requires a wrecker to remove it from traffic.

A copy of the report form used by all Florida law enforcement agencies is included as an Appendix to this publication.

Changes in the Florida law on reporting traffic accidents reduced the number of minor accidents reported to the Department, effective October 1, 1983. Figures based on total traffic accidents reflect that change. Data on traffic accidents involving the circumstances outlined above are not affected.
